"This committee conducted its committee hearing last 19th of November 2025. The Officer-in-Charge from the Department of Public Services, Mr. Kenneth Amurao, has explained the technicalities of the garbage generation for each industry and the necessity of the increase. He also added that such revision of the fees is also timely, considering that the city has recently been advised by...by the MMDA to redirect Manila's waste to the new San Mateo Sanitary Landfill in Rizal. This redirection will entail additional garbage hauling and transportation cost for the city. The City Treasurer's Office, the City Accountant, the City Legal Office, and Members of the committee has expressed their support on the proposed measure considering the last increase was made eleven years ago (11), where the city's requirement for essential services differs from the increase of demand of such service at present. This measure is also in line with the city's policy to comply with the mandates of Republic Act No. 9003, otherwise known as the Ecological Solid Waste Management Act of 2000 and Republic Act No. 7160, otherwise known as the Local Government Code of 1991, in promoting...in promoting Ecological Solid Waste Management and generating local revenues for the essential services."
